The main part of the autobiography that A.A. started to write was devoted to the life of his father, A.N. He wrote:

*«It may seem, that I tell of him too much and too detailed. But what mainly formed me as a personality and as a scientist was the communication with him.*

*A.L. - teenager*

## Leontievs family *(A.L. with parents and grands)*

From 1953 to 1958  
A.L. was a student of
